Arizona Corporation Commission
Hearing Division
1200 West Washington Street
Phoenix, Arizona 85007

Re: H2O Inc.; Docket No. W-02234A-07-0371; Late Filed Exhibit Supplement

Dear Judge Harping:

On January 31, 2008, I provided a late-filed exhibit requested by you and Staff in the hearing on this matter. It was an up-dated listing of the wells in production for the Company.

Mr. Schnepf was contacted by Katrin Stukov requesting the ADEQ Approvals to Construct the facilities listed in that late-filed exhibit. He faxed those to Ms. Stukov on February 6 and requested that I docket them in this docket. By copy hereof, I am so docketing those ATC's.

I am sorry we failed to include the ATC's with the late-filed exhibit, and hope this has not hindered your consideration. In the event you have any questions regarding this matter, please do not hesitate to call the undersigned.

Sincerely,

Richard L. Sallquist

ADEQ FILE NO.: 20050521	LTF No.: 36795
SUPPLYING SYSTEM NAME: H2O, Inc.	PUBLIC WATER SYSTEM NO.: 11-060
PROJECT NAME: Pecan Creek South Water Production Plant	
PROJECT OWNER: H2O, Inc.	
ADDRESS: 41502 N. Schnepf Rd., Queen Creek, AZ 85242	
LOCATION: Kenworthy Rd. and Kombs Rd., Queen Creek	COUNTY: Pinal
PROJECT DESCRIPTION: Installation of new 1,400 to 1,600 gpm well (ADWR Registration No. 55-609159, two 780,000-gallon water storage tanks; two 5,000-gallon hydropneumatic tanks; booster pump station; and related piping and fittings. No water service connections are approved as part of this project.	

Approval to Construct the above-described facility as represented in approved plan documents on file with the Arizona Department of Environmental Quality is hereby given subject to the following provisions:

1. This project must be constructed in accordance with all applicable laws, including Title 49, Chapter 2, Article 9 of the Arizona Revised Statutes and Title 18, Chapter 5, Article 5 of the Arizona Administrative Code.
2. Upon completion of construction, the engineer shall fill out the Engineer's Certificate of Completion, and forward it to the Drinking Water Field Engineering and Inspection Unit - Phoenix. If all requirements have been completed, that unit will issue a Certificate of Approval of Construction. R18-5-507(B), Ariz. Admin. Code. At the project owner's request, the Department *may* conduct the final inspection required pursuant to R18-5-507(B); such a request must be made in writing in accordance with the time requirements of R18-5-507(C), Ariz. Admin. Code.

CERTIFICATE OF APPROVAL TO CONSTRUCT DRINKING WATER DISTRIBUTION SYSTEM:
ADEQ FILE NO. 20050521: PECAN CREEK SOUTH WATER PRODUCTION PLANT
PAGE 2 OF 2 PROVISIONS, CONTINUED

3. This certificate will be void if construction has not started within one year after the Certificate of Approval to Construct is issued, there is a halt in construction of more than one year, or construction is not completed within three years of the approval date. Upon receipt of a written request for an extension of time, the Department may grant an extension of time; an extension of time must be in writing. R18-5-505(E), Ariz. Admin. Code.
4. Operation of a newly constructed facility shall not begin until a Certificate of Approval of Construction has been issued by the Department.
5. Before construction of a modification, expansion, or alteration of this distribution system begins, a separate Approval to Construct applicable to each addition must be obtained. R18-5-505(B), Ariz. Admin. Code.
6. Concentration of Nitrate in the well water exceeds the trigger value (9.02 vs. 5.0 ppm), the water system shall monitor per ADEQ Rules.
7. DWR approval shall be submitted as part of the AOC submittal. This includes DWR Well Driller Report, Log of Well, and Well Completion Report in addition to pump test data.
8. Provide an easy accessible shutoff valve on the discharge line at the well head so that the check valve shall be between the pump and the shutoff valve.

**APPROVAL TO CONSTRUCT
WATER PRODUCTION PLANT
ADEQ FILE No. 20060776
PAGE 2 OF 2: PROVISIONS CONTINUED**

5. This approval to construct does not include approval for the connection of the well to the water system. Approval to connect the well will not be given until pump test data and complete water quality information has been submitted.
6. Approval of Construction (AOC) will not be issued until data is obtained and verified for Pressure and Leakage Tests and Disinfection Sampling of constructed water lines. It is recommended that the Engineer's Certificate of Completion (ECC) Data Required Sheet be completed in full, showing actual pressures and sampling data. Data required with ECC sheet can be found under heading - Safe Drinking Water and subheading - Technical Engineering/Plan Reviews
<http://www.azdeq.gov/function/forms/appswater.html#sdw>.
7. All backwashing reject water and wastes shall be discharged in accordance with applicable permits.
8. O & M manual must be submitted and approved by ADEQ prior to issuance of Certificate of Approval of Construction.
9. Construction materials used in the water system shall be lead free as defined at A.A.C. R18-5-504 and A.A.C. R18-4-101.
10. Operation of a newly constructed facility shall not begin until a Certificate of Approval of Construction has been issued by the Department.
11. Before construction of a modification, expansion, or alteration of this distribution system begins, a separate Approval to Construct applicable to each addition must be obtained. A.A.C. R18-5-505(B).
12. Ensure that the pump has a standard bourdon-type gauge (pressure), or its equivalent, upon its discharge line. A similar gauge or means for pressure measurement be provided upon its suction line per Bulletin No. 10, Chapter 3, C.7.
13. Ensure that the overflow pipe of an above-ground storage unit shall open downward and be screened with 16-mesh noncorrodible screen installed within the pipe at a location least susceptible to damage per Bulletin No. 10, Chapter 6, E.6.
